TECHNICAL SKILLS

Frontend	TypeScript, JavaScript (ES6+), HTML5, CSS3, React, React Native, Redux (Toolkit, RTK Query, Thunk), Next.js, Tailwind CSS, SCSS
Backend	Node.js, NestJS, deno2, Java, REST APIs, GraphQL (Apollo), PostgreSQL, Prisma, MySQL, MongoDB, Contentstack (headless CMS), AWS, GCP (Cloud Run, Cloud SQL), Azure
DevOps	Git, GitHub Actions, Jenkins, Docker, Webpack(Module Federation), Vite, Babel, Gradle
Testing	Jest, Vitest, React Testing Library, Cypress, Playwright, Stryker, Postman
Tools	Storybook, shadcn/ui, Zod, ESLint, Biome, Prettier, Knip, npm, pnpm, yarn, JSR, Husky
AI & Agents	Prompt Engineering, MCP (Figma), Agent Skills, AI-assisted development, Hugging Face
Monitoring	Datadog, SpeedCurve, Adobe Analytics
Core Skills	Data Structures and Algorithms, Shell, Agile

EXPERIENCE

Senior Software Engineer May 2025 - Present
ITC Infotech(B/S/H)

- Led 0-to-1 build of an internal HR-insights platform (NestJS, Next.js, PostgreSQL, GCP) as technical lead of 2 developers, from scaffold to role-based rollups and attrition reporting in about 8 weeks; launching December 2026 for 3,000+ employees
- Owned architecture, database schema, CI/CD and cloud setup; designed leave/exit handling, role-based visibility and a minimal-PII data flow that keeps sensitive HR data hidden from developers
- Technical lead of 4 developers on a Next.js dealer locator live in 58 countries (3.81M requests per month); raised desktop Lighthouse score from 61 to 95 and cut page weight by about 16%
- Delivered SEO prefiltered dealer pages across the app, GraphQL server and headless CMS, shaping a cross-team content-model decision and entry-ID-based URLs for safe language switching
- Led a shared React location-finder component library (filter bar, flyout, virtualized sidebar, pagination) used by 2 production apps, built with Figma-to-code workflows and a Figma MCP server
- Shipped AI-powered natural-language product filtering ("small family under $800" to structured filters) from proof of concept to production in the product app using Next.js and TypeScript
- Built a reusable agent skill that cut component-library updates from 2-3 days to about 30-35 minutes (about $1.20 per run); apply prompt engineering and MCP in daily development
- Remediated 300+ vulnerabilities across 4 production repositories under tiered SLAs, with critical issues resolved within 36 hours
- Migrated 2 apps to Next.js 16, removed about 1,000 lines of dead code with Knip (CI-enforced), and cut deployment times by more than 50% through CI/CD improvements
- Cut TBT by 20% and page load by 25% on the product app and raised a11y scores by 25%; reviewed 120+ PRs from 15+ developers and mentored engineers on React and Next.js

Experience Engineer Nov 2021 - Sept 2024
Publicis Sapient

- Spearheaded Next.js migration for 3 critical client applications, reducing Time to First Contentful Paint by 62% and improving SEO rankings by 28% across all pages
- Led UI architecture design for application revamp using React.js and TypeScript best practices
- Established semantic release in CI/CD pipeline using GitHub Actions and Jenkins, reducing deployment time by 40%

- Optimized React application performance through code-splitting and lazy loading, improving load times by 18%
- Performed code and design reviews and mentored junior developers, participating in Agile ceremonies to ensure on-time delivery

Project Engineer Nov 2017 - April 2019
Wipro

- Contributed to the migration of a client application from Mainframes to the MERN stack, converting 85% of legacy functionality while reducing operational costs by $120K annually
- Improved database performance through normalization and indexing, reducing query response time by 50%

OPEN SOURCE & WRITING

- **Data Structures Library**(npm, JSR): type-safe, zero-dependency data structures for TypeScript/JavaScript with close to 100% test coverage
- **Technical writing** (Blog): 9 articles in 2026 on TypeScript, pagination, async patterns and frontend architecture; 2,900+ views and 1,800+ followers

EDUCATION

Bachelor of Computer Science, DIT University 2013 - 2017

CERTIFICATES

- AWS Certified Cloud Practitioner(08/2023 - 08/2026)
- NFR Web Specialist L1(05/2023 - Present)
- Oracle Certified Java Professional(07/2016 - Present)
- Hackerrank Problem Solving(09/2020 - Present)

HONORS & ACHIEVEMENTS

Professional Recognition
- Core Values Award, Publicis Sapient
- Star of the Month, Publicis Sapient
- Q2 World Leading Award, Suncorp Group Ltd.

Technical Achievements
- Arctic Code Vault Contributor on GitHub
- Active Stack Overflow Contributor (6.8k+ rep)
- 2x GATE Exam Qualifier (2020, 2021)
